

# UCSF/SFGH Public Psychiatry Fellowship

The Department of Psychiatry at the University of California San Francisco offers a non-ACGME accredited fellowship in Community Psychiatry through its affiliate program at San Francisco General Hospital. This one year traineeship, under the Direction of Christina Mangurian, MD, Assistant Professor of Clinical Psychiatry and James W. Dilley, MD, Vice-Chair of the Dept. of Psychiatry at UCSF and Chief of Psychiatry at San Francisco General Hospital, will develop and educate the next generation of leaders in community psychiatry. Core Faculty for the Traineeship includes Mark Leary, MD, Robert Cabaj, MD, Irene Sung, MD, Martha Shumway, PhD, and Raj Parekh, MD.

With an emphasis on recruiting minority junior faculty, this one year training experience, in collaboration with Community Behavioral Health Services (CBHS), San Francisco Department of Public Health (SFDPH), will be oriented around a range of clinical care activities within existing CBHS community psychiatry service programs (0.80 FTE) and (0.20FTE) focusing on building a knowledge base specific to Public Psychiatry. Fellows will be strongly committed to the role of psychiatrists as physicians caring for the chronically and seriously mentally ill and receive didactic education oriented towards becoming leaders in public psychiatry. Fellows will learn about the history and organizational structure of public psychiatry, program development, effectiveness and advocacy. Fellows will also be expected to prepare an evaluation or quality assurance project focused on improving some aspect of care at their clinical care assignment.

Core Activities of the Traineeship will include:

- Element I: Academic or Didactic Curriculum
- Element II: Primary Field Placement in CBHS outpatient clinic
- Element III: Faculty Supervision and Mentoring
- Element IV: Teaching, Presenting, and Supervising
- Element V: Research/Quality Improvement Project
- Element VI: Systems Management Skills
- Element VII: Community, Consumer, or Family Advocacy
- Element VIII: Recovery/Resiliency Oriented Services
- Element IX: Cultural Disparities, Competency and Sensitivity
- Element X: Telepsychiatry

## Competencies:

The didactic, clinical, administrative, and scholarship experiences provided during the traineeship will enable fellows to develop knowledge in:

- Prevention and public health approaches to community mental health
- Historical foundations of community mental health
- Effective leadership practices and consultation methods
- Administration and financing of public psychiatric services
- Integrated care for co-occurring disorders
- Program development in public behavioral health systems and system based care with an emphasis on the role of psychiatrists as physicians
- Services for special populations: Homeless, Criminal Offenders, LGBT clients, Addicted, Child and Family, Geriatric, Institutionalized.
- Person - Centered Care: Assessment and Treatment with a focus on diverse populations
- Professionalism

**Term of Fellowship**

Trainees will be junior faculty and hold the rank of Clinical Instructor, UCSF Dept. of Psychiatry. Salary is set at \$75,000 annually plus full benefits including health care, vacation and educational leave. These board eligible trainees will serve one-year terms (July 1, 2012 -- June 30, 2012). Fellows will also be eligible to earn additional compensation for providing evening/weekend coverage in the psychiatric emergency room at the hospital.

**Requirements**

Applicants must have completed a general adult residency in psychiatry and by the time the fellowship begins, must have a California medical license. Applicants must either be a US citizen or hold an appropriate visa. Fellows will be selected from applicants whose achievements reflect a strong desire to advance the work of public psychiatry in caring for those with complex mental health disorders and an interest in integrating mental health and primary care.

**How to Apply**

To apply, please send a cover letter telling us a little about yourself and your interest in public psychiatry, a CV, and contact information for three references. In your cover letter please indicate if you currently hold a California Medical License and if you are not a US citizen, let us know your visa status. After reviewing this information, we will arrange interviews. A complete set of training documents will be requested prior to final acceptance. Please send the requested materials to:
